

BACKPACK VACUUM CARE

1

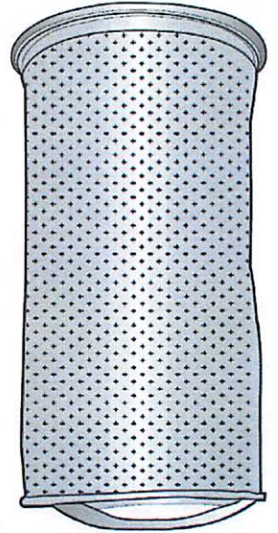

DAILY:

- 1 Inspect and empty paper bag

Leave the vacuum top off to be reassembled next day.

2

LAST DAY OF THE WEEK AT END OF SHIFT:

- 1 Discard the paper bag

****Use cool water****

- 2 Wash out the cloth bag and hang it to dry.
- 3 Wash out the foam dome filter and leave it to dry. Check with Head Custodian if a paper dome filter.
- 4 Wash out the exhaust filter and leave it to dry.

Wipe clean the extension cord and the body of the vacuum with a disinfectant cleaner.

Leave the vacuum open to be reassembled next week.
