

2018-19 Tuition & Fee Cost Estimate: University v M+ ESL Endorsement & MED Programs
(estimated based on 2017-18 Tuition rates + 3.9% tuition increase for 2018-19)

Graduate resident rate tuition and fees listed reflects the total across semesters in the program of: base tuition fee (currently \$879/semester) + tuition by credit hours (ranges based on number of credit hours taken per semester). It does not however encompass the mandatory University fees and miscellaneous course fees (e.g, mandatory \$60 online course fees). Access to the exact tuition, mandatory fees, etc. for an upcoming academic year is released late Spring by the University. Below is the Comparative analysis of the estimated costs associated with obtaining an ESL endorsement and an MED directly from the University versus the estimated costs for students admitted through the M+ District-University Partnership program.
