## **Around-the-Room Labels – Spanish / English**

Labeling some architectural fixtures and furnishings in the classroom is helpful to young children as they continue to learn that real objects can be represented with words and symbols in print.

**For multilingual labeling:**

Around-the-Room Labels are also available in English/Spanish and English versions.

**To learn more about appropriate labeling in the classroom:** View or download *Classroom Labeling*, a FREE Staff Training Aid published by the *Environments Professional Group*.
